--	---

The Assigned Commissioner's Guidance Ruling for the Distribution Resources Plans, issued February 6, 2015, directed the IOUs to address issues of what data is required for the DRPs and how to share data among the IOUs, third parties and customers. This workshop is intended to explore these issues, and provide a forum for interested parties to share their views.

Agenda

Available Data – What do we have today?

Data Requirements for Integration Capacity and Locational Benefit Analysis

AMI as a Data Source

HAN - what data, how much, why important

Smart Inverters – Specifications and Use Cases for Data

Applications of Data From Inverters

Thermal load data

Generating Solar Forecasting data

Interpreting efficiency data for optimal placement
